Apache Mahout is a powerful open source machine learning library that can be used to build scalable machine learning applications. It provides a wide range of algorithms for data mining, classification, clustering, and recommendation systems.

This book, written by Ted Dunning, is a comprehensive guide to using Apache Mahout. It covers everything from the basics of machine learning to advanced topics such as distributed computing and real-time analytics.

What You'll Learn

This book will teach you how to:

- * Use Apache Mahout to build scalable machine learning applications *
- Apply machine learning algorithms to real-world problems *
- Optimize your machine learning models for performance *
- Deploy your machine learning models in production

Who This Book Is For

This book is ideal for data scientists, machine learning engineers, and anyone else who wants to learn how to use Apache Mahout. It is also a valuable resource for students who are interested in learning about machine learning.

About the Author

Ted Dunning is a data scientist and software engineer with over 20 years of experience. He is the author of several books on machine learning and big data, including "Machine Learning with Apache Mahout" and "Hadoop: The Definitive Guide".

Table of Contents

* Chapter 1: to Apache Mahout * Chapter 2: Data Mining with Mahout *
Chapter 3: Classification with Mahout * Chapter 4: Clustering with Mahout *
Chapter 5: Recommendation Systems with Mahout * Chapter 6: Distributed
Computing with Mahout * Chapter 7: Real-Time Analytics with Mahout *
Chapter 8: Case Studies

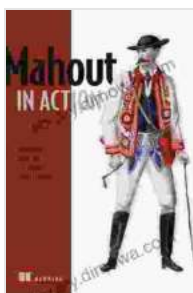

Reviews

"This book is a must-read for anyone who wants to use Apache Mahout to build scalable machine learning applications." - Michael Jordan, Professor of Statistics at the University of California, Berkeley

"Ted Dunning has written a comprehensive and practical guide to using Apache Mahout. This book is a valuable resource for anyone who wants to learn how to use machine learning to solve real-world problems." - Eric Schmidt, former CEO of Google

Apache Mahout is a powerful open source machine learning library that can be used to build scalable machine learning applications. This book, written by Ted Dunning, is a comprehensive guide to using Apache Mahout. It is ideal for data scientists, machine learning engineers, and anyone else who wants to learn how to use Apache Mahout.
